

ARCTIC COD LIVER OIL™

The fish oil that started it all, Arctic Cod Liver Oil (CLO) has always been derived from 100% wild Arctic cod (Skrei)—no other fish oils or synthetic additives are ever used. On average, Nordic Naturals CLO delivers over 125 mg more DHA per serving than other CLO products. The hallmark of achievement for Nordic Naturals is the uniqueness of our vertically integrated Arctic Cod Liver Oil. By managing every step of the supply chain, we ensure the exceptional quality, safety, and sustainability of our products, from boat to bottle.
